

PARTS. THERE'S NO SUCH THING AS A NONESSENTIAL PART.

Absolute Imaging Solutions™ provides a cost-effective alternative to high-priced OEM parts, with more than 10,000 SKUs in stock in our climate-controlled warehouse and a strong network of national suppliers that can secure hard-to-find items. All at a 40-70% savings off of manufacturers' list pricing.

Key levels of on-hand inventory of OEM and non-OEM parts are maintained to minimize downtime and reduce corrective maintenance recovery time.

We also offer fully guaranteed refurbished or reconditioned parts, which go through a series of rigorous tests to ensure proper working condition. All refurbished parts meet or exceed OEM specifications and come with a 90-day warranty.

“We have had the privilege of working with Absolute Imaging Solutions since 2004. AIS has consistently demonstrated a quick response time on service calls. The quality of service they provide has been excellent and professional.”

- Staff, Southeastern Heart & Vascular
